It explains everything from the basics of nursing, to SIDS, to facial massage, and finishes with the secrets to good speech development and keys to enhancing your child's best natural appearance. Written by a speech-language pathologist with more than thirty years of experience, this book contains practical advice for all new parents on everything they need to know about oral development from birth to eight years old.

**Special People, Special Ways**

Arlene Maguire  
978-1-885477-65-1  
**\$14<sup>95</sup>**  

Winner of an iParenting Media Award, this book illustrates that beyond our physical limitations is a world of unique gifts for each of us to share. Arlene Maguire's rhymes and Sheila Bailey's vivid illustrations portray positive images of children with various disabilities. Teachers and parents love to read this book aloud to promote understanding and tolerance in school and at home.

**Behavior Solutions for the Inclusive Classroom**  
See a Behavior? Look It Up!

Beth Aune, OTR/L, Beth Burt & Peter Gennaro  
978-1-935274-08-7  
**\$14<sup>95</sup>**  

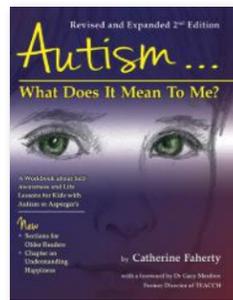

Based on cognitive thinking, here's a different approach in helping people of all ages with autism. This book illuminates possible causes of those mysterious behaviors, and more importantly, provides solutions! Teachers can quickly look up an in-the-moment solution and learn about what the child is communicating, and why.

**The Social Skills Picture Book**  
Teaching Play, Emotion, and Communication to Children with Autism

Jed Baker, PhD | 978-1-885477-91-0 | **\$39<sup>95</sup>** 

Winner of an iParenting Media Award, this book uses photographs of students engaging in a variety of real-life social situations. Color photographs illustrate the "right way" and "wrong way" to approach each situation—and the positive/negative consequences of each. An adult then explains each situation, asking questions such as, "What is happening here?" Children can role-play skills until they are confident enough to practice them in real life.

**Autism Is the Future**

Marlo Payne Thurman, PhD  
978-1-941765-89-0  
**\$14<sup>95</sup>**

MAY

After her expansive research, author Marlo Thurman describes how cognitive differences are the constructing pieces in understanding those with autism. Based on the findings of her literature review, autism could challenge assumptions about intelligence and its measurement for those with the "disorder." She proposes that sensory and cognitive development have evolved together into a very different form of intelligence and autism should not be viewed as a disability, but instead as a difference to be celebrated and followed.
