Before the Lesson:

At <http://fhautism.com/arc.html>, find Worksheet 15 (Variation 1). Print one for each student, plus a few extras. Write the date on the board.

Teaching the Lesson

1. Distribute the worksheets and pencils to your students. Say: “Write your name on your paper.” Make sure everyone writes his or her name. Then say: “Write the date. It is on the board.” Make sure everyone writes the date. Take the pencils from them.
2. Say: “(student’s name), please read the sentences at the top of the paper.” Ask several students to read. If no one can read the passage, read it yourself, or have an aide read it.
3. Say: “We want to color the picture. What four crayons do we need?” Ask the question several times, and allow different children to answer. Then help them find the brown, red, blue, and yellow crayons. Take the crayon boxes from them.
4. Say: “We will color the worms brown, the left bird red, the right bird blue, and the middle bird yellow. What color do we color the worms?” Ask the question several times, and allow different children to answer.
5. Say: “Color the worms.” Make sure they color only the worms. Repeat the words “brown worms” as often as possible.
6. Say: “What color do we color the left bird? Let’s look back at our story if we need a reminder.” Ask the question several times, and allow different children to answer.
